EDUCATION

Sacred heart School, Bahrain - (2019)
Indian School, Bahrain - (2019 - 2021)
Jain (Deemed-to-be University) - Bangalore,India (2021-2024)
Bachelors in Computers Applications

PROJECTS

Space shooter 2D (Unity Engine)
My first Unity game project was a space shooter game. i learned how to add audio, different power ups like double shot, triple shot and shield. Learned how to add enemies, made them shoot back. gave a health system and a point system.

Monkey Jump (Unreal Engine)
Monkey jump is a parkour game that has 5 levels each levels has a unique feature, made custom materials and assets with the help of Blender. each level has a unique way of losing the level for example rocks fall, falling platforms, fire shots and hidden walls.

TheUnknown (Unreal Engine 5.0)
Developed a cooperative souls-like game in Unreal Engine 5 featuring two playable characters — a sword-wielding warrior and an archer. Contributed across multiple disciplines including programming, animation, and 3D world building, creating an interconnected environment designed for seamless co-op gameplay in the souls-like genre.

EXPERIENCE

Mphasis LTD (2024 december - 2025 April) - Customer Relation
Customer care for Capital one - in this job i have learned various ways to handle customer distress and solve numerous problems, problems like scam, grief, critically ill and loss of job.
